PROJECTS

Task Master , (Github) (Demo)	January 2025
--	--------------

- **Tech Stack:** HTML, CSS, JavaScript
- **Description:** This is a simple and easy-to-use to-do list application designed to help users manage their tasks efficiently. It allows users to effortlessly add, delete, and organize tasks, making it a practical tool for daily task management. The project also serves as a fun and interactive way to practice and bring JavaScript functionality to life.

Urban Vouge , (Github) (Demo)	December 2024
--	---------------

- **Tech Stack:** HTML, CSS
- **Description:** This is a simple yet stylish clothing webpage featuring a clean and responsive design for a smooth browsing experience. The site showcases fashion in a modern and minimalistic way, providing an elegant platform for presenting clothing items. It's a great project to demonstrate web design skills, with a focus on user-friendly navigation and contemporary aesthetics.

Cab-Rental , (Github) (Demo)	November 2024
---	---------------

- **Tech Stack:** HTML, CSS
- **Description:** This project involves creating a clean and simple cab rental webpage with an easy-to-navigate, responsive design. It aims to provide a smooth and effortless ride booking experience, while showcasing a modern and minimal web design. The focus is on offering users a seamless, user-friendly interface for booking rides.

SKILLS

Computer Languages: Python, JavaScript, CSS, HTML

Software Packages: React

Soft Skills: Teamwork, Time management, Public speaking

EXTRA-CURRICULAR ACTIVITIES

- Robotics is a co-curricular activity being actively pursued, and there was an opportunity to visit **IIIT Delhi** for a robotics competition.
- Active participation took place in the SIH (Smart India Hackathon) Hackathon, where collaboration with a team occurred to develop innovative solutions for real-world problems.
